

One tire to rule them all.
Aggressive yet fast rolling tread designed to excel in every condition.

Downhill champion Stevie Smith loves this tire for the predictable cornering performance and aggressive brake power in every condition.

NEW 2014

Outer knobs

- Very strong with massive support = no knob rollover even during high speed cornering
- Different angles = predictable cornering / better braking characteristics
- V- grooves with varying depth for additional biting edges
- Sharp 90° cut for outstanding cornering grip

Center knobs

- Smooth rolling and reinforcement due to ramped edge design
- Siped tread with V- grooves for additional biting edges
- Sharp 90° knob cut creates massive braking grip

Open groove

- Exposed outer blocks = incredible cornering grip
- improved self cleaning properties

V-groove knob

- distinctive groove center
- V-groove keeps the knob strong at the outer edge of the groove

Versions	
26" (26x2.35 // 60-559)	
Downhill: VSC	1190 gr.
Super Gravity: TSC / VSC	995 gr.
